CAREER OBJECTIVE

Motivated and detail-oriented Computer Applications student with solid foundations in Java, front-end web development, and database concepts. Experienced in building responsive, client-side web applications using JavaScript and modern styling frameworks. Eager to apply software engineering principles, master industry workflows, and contribute to production-grade development teams.

TECHNICAL SKILLS

Languages:	Java (Core & OOP), C, C++, JavaScript (ES6+), SQL
Frontend & Web:	HTML5, CSS3, DOM Manipulation, Fetch API, Tailwind CSS, Bootstrap
Databases:	MySQL, Relational Database Management Systems (RDBMS), SQL Fundamentals
Developer Tools:	IntelliJ IDEA, Git, GitHub, VS Code

KEY PROJECTS

Personal Expense Tracker | **HTML5, CSS3, JavaScript, Form Validation**

- Developed a responsive personal finance management tool to log income, track expenditures, and calculate real-time net balances.
- Engineered complete client-side CRUD functionality with dynamic DOM rendering based on user actions.
- Implemented structured client-side form validation to sanitize input fields and ensure accurate financial transaction records.

Dynamic Weather Application | **HTML5, CSS3, JavaScript (Fetch API), REST API**

- Built a live forecasting web app consuming third-party REST API endpoints using asynchronous JavaScript (`async/await`, `fetch`).
- Parsed JSON responses dynamically to render temperature, humidity, wind conditions, and weather icon states.
- Implemented comprehensive client error-handling routines for invalid city queries, empty inputs, and failed network calls.

Interactive Quiz Application with Validation | **HTML5, CSS3, JavaScript (DOM, Timers)**

- Designed an interactive, timed multiple-choice quiz engine rendering question sets dynamically from structured JavaScript data.
- Implemented client-side input validation and option tracking to calculate accuracy, prevent skip submissions, and record high scores.
- Delivered a mobile-responsive interface featuring dynamic progress bars, animated score cards, and restart mechanisms.

EDUCATION

SS Jain Subodh PG College — 2024 – Present
Bachelor of Computer Applications (BCA) — Pursuing — First Year SGPA: **8.0+**

Senior Secondary Examination (Class XII - Science / PCM) — 2024
Bihar School Examination Board (BSEB) — Score: **80.0%**

Secondary School Examination (Class X) — 2022
Bihar School Examination Board (BSEB) — Score: **89.6%**

ACADEMIC COURSEWORK

Core Subjects: Data Structures & Algorithms (DSA), OOP in Java & C++, DBMS, Computer Networks, Operating Systems
